1.2.1 Project Definition

Matrimonial Web Application.

What is Matrimonial Web Application?

The main objective of Matrimonial Web Application is to provide Grooms and Brides with excellent matchmaking experience by exploring the opportunities and resources to meet true potential partner. Keeping our objective in mind, we have created a world renowned online matchmaking services that will touch the souls of millions of
people all over the globe.

The purposes of the Matrimonial Web Application are:

•The main purpose of this application is to facilitate matchmaking business by applying the information in the field.
•It helps the user by providing profiles of perspective "Bride" or "Groom" and other information regarding them online.
•User can get information regarding their dream life partner at his/her home at his/her convenience.
•This application also provides a search utility which helps those users whohave a certain criteria of qualities in mind to make online matrimonial easier.
•Since internet is a pivot for modern business, our project which is based on internet paves a path for modernization in trade. Matrimonial Web Application will allow a new user to register and after successfully
registration user can get email confirmation, after completing registration users profile will be visible to other users.

Matrimonial website which will provide platform to a lot of Bride/Groom for finding perfect match. There are different sectors like Registration, Partner, Search, etc. So the Bride/Groom can get their interest for find their partner. Bride/Groom candirectly search Partner according to their required criteria. The Bride/Groom can use match By Email functionality so he/she can get directly E-mail alert for the match which fulfill their required criteria.
